- Houses • Animal shelters
- Sports complexes • Farmhouses

Extra benefit at no extra cost

- ✓ Stronger**

Made with superior technology, Charminar Colored Steel sheets have higher tensile strength, performing under adverse conditions. Moreover, the sheets are light weight to ensure convenience in installation and low expenditure on supporting structure.
- ✓ Thicker**

Added layers of coating ensure better protection against corrosion and provide excellent heat insulation. Due care is taken for coatings to be crack/peel resistant.
- ✓ Long Lasting**

Covered with multiple protective layers of Zinc and paint, the sheets are designed to withstand extreme weather conditions. The anti-rust technology ensures longer life of the product.
